Kent School District - Curriculums/Paths in 9th

The students in the honors track will be automatically enrolled in Biology/Integ II/IV in 9th, and Chemistry in 10th grade. From Kent → **YES. This is a practice at Kentridge. We know that students on the honors track can do the Biology in 9th and it gives them more science opportunities for their 11th & 12th grade years.**

Wenatchee School District, Freshman Registration Information

<http://whs.wsd.wednet.edu/Faculty/Counseling/Student%20Services/Freshman%20Registration%20Information.pdf>

58% 9th graders took Biology I per OSPI Bio EOC pass rates divided by the number of 9th graders enrolled per OSPI. Of those that took it at that time, 83.8% passed. This is considered Path II (of a science Path I – III option). It is recommended by WSD materials (course guide) that students follow Path I, though Path II and Path III exist for those that want to choose to accelerate.
