

NOTICE OF PUBLIC
OPEN HOUSE FOR

North Bend Shoreline Public Access and Trail Plan

Please Join Us

**Wednesday
September 25th
5:30 p.m.**

North Bend City Hall
920 SE Cedar Falls Way

The City of North Bend is advancing planning related to public access to the Middle Fork and South Fork Snoqualmie River shorelines from a grant received from the Washington State Department of Ecology. To understand the community's priorities for shoreline access, the City is developing a plan which aims to create a cohesive network of access points and trails, enhancing recreational opportunities for residents and visitors.

Please consider taking a brief **survey** to share your feedback on local shoreline use. Doing so will help to ensure that the needs and preferences of our community are fully considered.

For more information on the update please find the project landing page [here](#).

For questions on the update process, contact Senior Planner Jamie Burrell at jburrell@northbendwa.gov, or by phone at (425) 888-7642.

Published in the Snoqualmie Valley Record, posted to the City website and at the City's official posting locations.
